SUMMARY

Dedicated computer science student with hands-on experience in programming and problem-solving, gained through coding competitions and collaborative projects. Skilled in data structures and algorithms, and effective in both individual and team-based challenges.

PROJECTS

LearnOha – Study & Relax Web Platform

July 2025

Designed and implemented a dual-mode web application combining study productivity tools with relaxation features for stress-free and balanced learning.

Project Summary

- Developed Study Mode with bookshelf, vault, to-do list, book swap, portfolio, and calendar for study reminders to support organized learning.
- Created Relax Mode inspired by “aloha” (peace/calmness), including fun facts, motivational quotes, classic games (Snake, 2048), and music player to stress relief.
- Focused on intuitive navigation and seamless transition between modes for a balanced user experience. Ensured scalable design for future feature extensions.

Execution Built with responsive front-end components and efficient state management to ensure smooth user experience across different modules.

Language Used HTML, CSS, JavaScript

Editors Visual Studio Code

Simulation of a Car Wash Queue

May 2024

Collaborated in a team of two to design the simulation of a car wash queue system for a car wash facility.

Project Summary

- Cars arrive at the facility and join a queue to wait for their turn to be washed.
- Each washing station can handle one car at a time. When a washing station becomes available, the next car in the queue is moved to the station for washing.
- Once a car has been washed, it leaves the station, and the next car in the queue moves up for washing.

Execution Utilized a Queue data structure and algorithm to develop and simulate this car wash queue system efficiently.

Portfolio - collection of my work, skills, and achievements that showcases my abilities and experience. [View Site](#)

TECHNICAL SKILLS

- Web Technologies:** HTML, CSS, JavaScript, Basic React
 - CS Fundamentals:** DBMS, CN
 - Design and Modelling Tools:** Microsoft Office, Oracle SQL Developer
 - Proficiency:** Data Structures and Algorithms
- Programming:** C, Python, Java, C++
 - Operating System:** Windows, Linux
 - Data Analysis and Statistics:** Excel, Jupyter

CERTIFICATIONS

Cisco Network Academy

- CLA: Programming essentials in C
- Python Essentials 1
- Operating System Basics
- HTML Essentials
- CSS Essentials
- JavaScript Essentials 1 & JavaScript Essentials 2

PROGRAMMING ACHIEVEMENTS

Top 1 in the **Coding Contest** held at college.
National Semi-Finalist in **Flipkart Grid 7.0 Hackathon**.
Winner of JavaQuest conducted by **Oracle Academy**.

CODECHEF

- 2*** Coder at [Codechef](#).
- Participated in **60+** weekly contests in [Codechef](#).
- Solved around **290+** problems.

LEETCODE

- With knowledge in Data Structures and Algorithms, I have solved **300+** problems in [Leetcode](#).

HACKERRANK

- Earned **3** badges in [Hackerrank](#).
- 5*** badge in SQL, **4*** badge in Python and **3*** badge in C.
- Achieved an Intermediate [SQL Certificate](#).

GEEKSFORGEEKS

- I have solved **110+** problems in [Geeksforgeeks](#).

EDUCATION

B. Tech Computer Science Engineering

Aditya College Of Engineering & Technology, Surampalem, Andhra Pradesh

Class XI & XII

Ashram Public School (CBSE), Kakinada, Andhra Pradesh

Class X Ashram Public School (CBSE), Kakinada, Andhra Pradesh

Graduating **9.25** CGPA

2021-2023 **8.4** CGPA

2021 **8.6** CGPA

COMMUNICATION

English, Telugu, Hindi

- I have strong communication skills, allowing me to actively listen and clearly articulate my thoughts. My ability to engage in meaningful conversations ensures strong relationships and collaboration. Additionally, I am currently preparing for the Cambridge B2 Upper Intermediate examination.
