SUMMARY

Computer Science student with hands-on experience in full-stack development, data structures and algorithms, and backend development. Experienced in building web applications and solving programming problems through projects, fellowships, and coding competitions.

PROJECTS

Univo – Centralized Academic Communication Platform Mar 2026

Technologies Used JavaScript, React.js, Node.js, Express.js, MongoDB

- Designed and developed a full-stack web platform to centralize **academic communication, resource sharing, and collaboration** through role-based access.
- Developed role-based dashboards for **Students, Faculty, Coordinators, HODs, and Admins** with secure **JWT authentication and authorization**.
- Implemented **announcements, resource management, assignment tracking, discussion forums, and real-time notifications** to streamline academic workflows.
- Built **real-time chat functionality using Socket.IO** and integrated **RESTful APIs** to support seamless communication.

Library Management System API Dec 2025

Languages Used JavaScript (Node.js, Express.js)

- Designed and independently developed a **backend Library Management System** using RESTful APIs.
- Developed APIs for core library operations including **adding, updating, retrieving, and deleting books**.
- Implemented functionalities for **issuing and returning books** while tracking book availability status.
- Structured API endpoints using appropriate **HTTP methods**, with proper request handling, response management, and validation.

EXPERIENCE

AlgoUniversity Tech Fellowship (ATF) 2025 — Fellow

- Selected for the **AlgoUniversity Tech Fellowship (ATF) 2025**, completing structured training in **Data Structures and Algorithms**, covering fundamentals through advanced topics including graphs.
- Actively participated in **Dev Season 2026**, participating in Full-Stack Development sessions and applying the concepts to build a full-stack project.
- Developed a **full-stack online coding platform** for learning and practicing programming, featuring **coding problems, contests, and leaderboards**.

TECHNICAL SKILLS

Programming: C, Python, C++, Java, SQL

Web Technologies: HTML, CSS, JavaScript, React.js, Node.js, Express.js

Database: MySQL, MongoDB

CS Fundamentals: DBMS, OOPs, Operating System

Proficiency: Data Structures and Algorithms

Tools & Platforms: Git, Git Bash, GitHub, VS Code, Postman, Docker

AI & Automation: n8n, Streamlit, Groq API, Google Gemini API, Continue.dev, Prompt Engineering

CERTIFICATIONS

Certiport - [IT Specialist in HTML and CSS](#) Aug 2024

Oracle Academy - [Java Certified Foundations Associate](#) May 2025

Oracle Academy - [Oracle Certified Foundations Associate, Database](#) Sept 2025

Redhat Academy - [Red Hat Certified System Administrator \(RHCSA\)](#) Aug 2025

Microsoft - [GitHub Foundations](#) Mar 2026

MongoDB - [MongoDB Certified Associate Developer](#) Apr 2026

Cisco Network Academy - [Cisco Certified Network Associate \(CCNA\)](#) June 2026

ACHIEVEMENTS

- National Semi-Finalist** in Flipkart [Grid 7.0 Hackathon](#).
- Winner** of **JavaQuest** conducted by **Oracle Academy**.
- Ranked among the top **11-20** participants in **SQL Query Competition** conducted by **Oracle Academy**.
- CODECHEF** - **2★** Coder at [CodeChef](#), solved **500+** problems across **85+** weekly contests; maximum rating: **1528**.
- LEETCODE** - Solved **500+** problems in [LeetCode](#); maximum rating: **1594**.
- HACKERRANK** - Earned **5** badges in [HackerRank](#), about **17*** and achieved an Intermediate [SQL Certificate](#).
- GEEKSFORGEEKS** - Solved **110+** problems in [GeeksforGeeks](#).

EDUCATION

B. Tech in Computer Science & Engineering - Aditya College of Engineering & Technology, Surampalem CGPA: **9.16** | Present

Class XI & XII - Ashram Public School (CBSE), Kakinada, Andhra Pradesh CGPA: **8.42** | 2021-2023

Class X - Ashram Public School (CBSE), Kakinada, Andhra Pradesh CGPA: **9.07** | 2021
